Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

I only use my phone as a safety measure. To get in contact with someone when something happens while I am away from my house.

My husband is disabled and when I do go to do banking, grocery shopping or whatever calls me away from the house, my husband has the security that I am only a phone call away if an emergency should arise.

Please do not raise the rates. I need my phone for the above reasons and if it gets too expensive, I will have to give up the safety it instills in my family.

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,
